Quarterly Business Report

Prepared by the Finance Department

October 2026

Revenue grew steadily through the third quarter, driven by strong subscription renewals and a notable increase in enterprise accounts. Operating costs remained flat, which lifted the overall margin profile well above the plan we shared in January.

- Subscription revenue up 14% quarter over quarter
- Enterprise pipeline doubled after the June launch
- Headcount held steady at forty-two employees

Region	Revenue	Growth
North America	$412,000	12%
Europe	$268,500	9%
